6mil Beige/Black

SealPlus 6mil Beige/Black is a UV-resistant multilayer EVOH oxygen barrier film. It is a one-step product, with great strength and UV protection it's the perfect product for covering in higher wind scenarios, or if labor force is an issue, **saving time and reducing labor costs**.

Thanks to its performance and the option of custom-sized rolls, this product significantly reduces both installation time and labor expenses required for covering.
To further reduce installation time and costs, we recommend securing the film with our waterbags, also available in any desired length.

UV RESISTANT
LONG-LASTING PERFORMANCE IN ALL CONDITIONS
